

Topic: Goals of Care and Advanced Directives

Guest: Garen Derhartunian, MD

Raised in Glendale, CA, Dr. Derhartunian has always had a passion for medicine. Growing up in the tight community, he spent most of his childhood helping his father at a local pharmacy. There, he not only learned a vast array of different pharmacokinetics, but also strengthened the bond with the community in which he dreamed of serving. Dr. Derhartunian's career began in Glendale at R.D. White Elementary School where him and Dr. Tovmassian became instant friends. He then went on to complete his education at Woodrow Wilson Middle School followed by Glendale Senior High School. After obtaining a Bachelors in Science in Biochemistry from the University of California at Santa Barbara, Dr. Derhartunian attended Ross University Medical School. He completed Internal Medicine Residency at NYU-Lutheran Medical Center in Brooklyn, NY. His main focus in medicine is a preventative approach with a emphasis on evidence based medicine.

Vicken Sepilian, MD FACOG

"Your Health" host Dr. Vicken Sepilian is a current board member and Past President of the Armenian American Medical Society. He is board-certified in Reproductive Endocrinology and Infertility, as well as Obstetrics and Gynecology. He completed his residency in Obstetrics and Gynecology at Drexel University College of Medicine in Philadelphia and his fellowship in Reproductive Endocrinology and Infertility at the University of Texas. Dr. Sepilian currently practices in Los Angeles and in Glendale.

Featuring physicians and health care professionals whose areas of practice cover the entire spectrum of allied health care, "Your Health" is a dynamic resource for viewers interested in improving their health. The program emphasizes the importance of preventative care, and focuses on how people can maintain a healthful lifestyle. The program provides an opportunity for the Armenian community to address their concerns with the counsel of bi-lingual health care professionals. The program also provides viewers with information about the AAMS and our activities in California and Armenia. The AAMS encourages individuals to contact local social workers to learn whether they are eligible for health

insurance. AAMS doctors and nurses encourage their patients to get the insurance they deserve, and to see a physician regularly for the care that they need.
