Failed Lap Band - Not the Patients Fault

Guest:

Ara Keshishian, MD, FACS, FASMBS

Dr. Ara Keshishian completed his undergraduate studies at the University of Southern California in Biomedical Engineering. He then attended the American University of the Caribbean for medical school and completed his surgical residency training in St. Joseph, Pontiac Michigan. As part of his training, he gained experience in weight loss surgical procedures. In Private practice since 1999, he has performed over 2000 weight loss surgical procedures. These have included both primary procedures and surgical correction of complication of other procedures. He specializes in surgical correction of complication of the lap band and the gastric bypass. He is Board Certified in General Surgery, and is a Fellow of the American College of surgeons and the American Society for Metabolic and Bariatric Surgery.

"Your Health" host Dr. Vicken Sepilian is a current board member and Past President of the Armenian American Medical Society. He is board-certified in Reproductive Endocrinology and Infertility, as well as Obstetrics and Gynecology. He completed his residency in Obstetrics and Gynecology at Drexel University College of Medicine in Philadelphia and his fellowship in Reproductive Endocrinology and Infertility at the University of Texas. Dr. Sepilian currently practices in Los Angeles and in Glendale.

Vicken Sepilian, MD FACOG

Featuring physicians and health care professionals whose areas of practice cover the entire spectrum of allied health care, "Your Health" is a dynamic resource for viewers interested in improving their health. The program emphasizes the importance of preventative care, and focuses on how people can maintain a healthful lifestyle. The program provides an opportunity for the Armenian community to address their concerns with the counsel of bi-lingual health care professionals. It also provides viewers with information about the Armenian American Medical Society (AAMS) and its activities in California and Armenia. The AAMS encourages individuals to contact local social workers to learn whether they are eligible for health insurance. AAMS doctors and nurses encourage their patients to get the insurance they deserve, and to see a physician regularly for the care that they need.
