

Topic: Fetal Ultrasound to Diagnose Anomalies in Pregnancy

Guest: Paola Aghajanian, MD

Paola Aghajanian, MD is the Director of Labor and Delivery at Cedars-Sinai's Department of Obstetrics and Gynecology. She is a maternal-fetal medicine sub-specialist and is board certified in obstetrics and gynecology.

After earning her bachelor's degree in molecular and cell biology, Phi Beta Kappa, from the University of California at Berkeley, Dr. Aghajanian earned her medical degree from the University of California, San Diego School of Medicine. She completed her obstetrics and gynecology residency at the University of California, Los Angeles Medical Center, followed by a fellowship in maternal-fetal medicine at the Los Angeles County - University of Southern California Medical Center.

Dr. Aghajanian's research interests include autoimmune disease in pregnancy, multiple gestation and fetal therapy. She is the author of several peer reviewed publications and four book chapters about problems in pregnancy. She is the recipient of awards for teaching and for her educational videos on women's health presented in American Sign Language.

In addition to being a fellow of the American Congress of Obstetricians and Gynecologists and a member of the Society of Maternal Fetal Medicine, Dr. Aghajanian is a member of the American Institute of Ultrasound Medicine, the International Society of Ultrasound in Obstetrics and Gynecology and the Armenian American Medical Society.

Vicken Sepilian, MD MS FACOG

"Your Health" host Dr. Vicken Sepilian currently serves as the President of the Armenian American Medical Society of California. He is board-certified in Reproductive Endocrinology and Infertility, as well as Obstetrics and Gynecology. He completed his residency in Obstetrics and Gynecology at Drexel University College of Medicine in Philadelphia and his fellowship in Reproductive Endocrinology and Infertility at the University of Texas. Dr. Sepilian currently practices in Los Angeles and in Glendale.

Featuring physicians and health care professionals whose areas of practice cover the entire spectrum of allied health care, "Your Health" is a dynamic resource for viewers interested in improving their health. The program emphasizes the importance of preventative care, and focuses on how people can maintain a healthful lifestyle. The show provides an opportunity for the Armenian community to address their concerns with the counsel of bi-lingual health care professionals. The show also provides viewers with information about the AAMSC and our activities in California and Armenia. The AAMSC encourages individuals to contact local social workers to learn whether they are eligible for health insurance. AAMSC doctors and nurses encourage their patients to get the insurance they deserve, and to see a physician regularly for the care that they need.
