

Topic:

Benign Prostatic Hypertrophy and Erectile Dysfunction

Guest:

Armen Kassabian, MD

Dr. Kassabian specializes in urology. He received his medical degree from the University of Southern California, School of Medicine and completed his urologic residency at the prestigious Mount Sinai Medical Center in New York. Dr. Kassabian has published in peer reviewed journals and has presented at meetings both locally and nationally. Dr. Kassabian's clinical areas of expertise include minimally invasive prostate therapy, male and female urinary incontinence, infertility, kidney stones, erectile dysfunction, male sexual dysfunction, benign prostate enlargement and cancers of the prostate, bladder, kidney, penis, and testicles. His sub-specialty experience includes extensive research on the molecular genetics of male infertility and in caring for the complex issues involved in the difficult to treat infertile couple with significant male factor issues. Dr. Kassabian's state of the art practice focuses on minimally invasive techniques, procedures, and laparoscopic surgery in a caring and compassionate environment. Dr. Kassabian is a member of the Alpha Omega Alpha Honor Medical Society, American Urologic Association, the Western Section American Urologic Association, the American Association of Clinical Urologists, and the Endourological Society. Dr. Kassabian is certified by the American Board of Urology. As a urologist, Dr. Kassabian is dedicated to providing the finest quality care for his patients in a supportive and friendly environment. He respects the diverse needs of his patients and makes every effort to ensure they are addressed.

"Your Health" host Dr. Vicken Sepilian is a Past President of the Armenian American Medical Society. He is board-certified in Reproductive Endocrinology and Infertility, as well as Obstetrics and Gynecology. He completed his residency in Obstetrics and Gynecology at Drexel University College of Medicine in Philadelphia and his fellowship in Reproductive Endocrinology and Infertility at the University of Texas. Dr. Sepilian currently practices in Los Angeles and in Glendale.

Featuring physicians and health care professionals whose areas of practice cover the entire spectrum of allied health care, "Your Health" is a dynamic resource for viewers interested in improving their health. The program emphasizes the importance of preventative care, and

focuses on how people can maintain a healthful lifestyle. The program provides an opportunity for the Armenian community to address their concerns with the counsel of bi-lingual health care professionals. It also provides viewers with information about the Armenian American Medical Society (AAMS) and its activities in California and Armenia. The AAMS encourages individuals to contact local social workers to learn whether they are eligible for health insurance. AAMS doctors and nurses encourage their patients to get the insurance they deserve, and to see a physician regularly for the care that they need.
