

# A UNITED NATION

## *a new breath*

A televised fundraiser to benefit those injured during the recent events in Armenia

### Your Gift of Hope and Healing

There is a crisis brewing in our homeland — the injured and displaced are in desperate need of specialized medical care to heal their injuries and make them whole again.

The upcoming telethon, A United Nation – A New Breath, will ensure our brothers and sisters receive the necessary care through donations of equipment, supplies, and medications. Over the past few months, the Armenian American Medical Society has been actively raising funds for this cause. We want to share with you one of the several items that were purchased through your generosity.

#### Avance® Negative Pressure Wound Therapy System

- 5 Avance NPWT Flex Pumps
- 250 Avance Dressing Kits
- 150 Canisters

Please help us continue the healing. Join the AAMS, in partnership with Eternal Nation Foundation, for a special televised fundraising event. The 12-hour program will feature celebrities, some of the injured and their treating physicians, donors, and community members. All social media outlets will be airing the program live in its entirety.

**December 25, 2020**

**10:00 a.m - 10 p.m. PST**

(Airing on Armenian Television and all social media outlets)
