

India is experiencing an unprecedented number of new COVID infections and its oxygen supply is being depleted. Patients are being turned away from hospitals and this life-saving treatment because of the shortage. Their under-funded health system is buckling under the stress. Armenia's COVID numbers are rising and the country's oxygen generators are aging and in disrepair. Just like India, they simply can't keep up with the demand. Please join our "Breath of Life" fundraiser. Help us reach our goal of raising \$250,000 to support Armenia's Cryogenic Center/Oxygen Generator Project, oxygen delivery methods, and COVID-19 therapies. You can ensure our brothers and sisters can breathe easier.

Breath of Life

FUNDRAISER

Oxygen is considered an essential medicine. And not just for COVID-19. Many of the most common causes of death can be avoided with oxygen treatment. Armenia's oxygen generating equipment is failing. Your gift will help Armenia breathe easier.

Help us reach our goal of raising \$250,000 to support Armenia's Cryogenic Center/Oxygen Generator Project, oxygen delivery methods and COVID-19 therapies.

Please join the AAMS
May 23, 2021 | 4:00 to 7:00 P.M.
