

Oxygen is the primary treatment for most patients with severe COVID-19 symptoms. COVID-19 cases are rapidly surging in Armenia. Their equipment is failing, insufficient and obsolete. Please donate to the Cryogenic Center/Oxygen Generator System fund, for the installation of modernized, efficient new equipment, that will produce sufficient quantities of liquid oxygen and liquid nitrogen for the country for the next 50 years, so Armenia can breathe easier.

# Breath of Life

## FUNDRAISER

Armenia is in the middle of its third COVID-19 surge. Today there are 12,387 new active cases of the disease in the country. Your donation will help Armenia breathe easier.

Help us reach our goal of raising \$250,000 to support Armenia's Cryogenic Center/Oxygen Generator Project, oxygen delivery methods and COVID-19 therapies.

Please join the AAMS  
May 23, 2021 | 4:00 to 7:00 P.M.  
The Roof: 3341 Cahuenga West Blvd.  
Los Angeles, CA 90068
